

Area 1D Spring League 2021 Supplemental Field Specific COVID-19 Protocols As of 4/16/2021

(based on 4/15/2021 LA County Health Order, and City/School District
Local Rules currently in Effect)

This is a supplement to the protocols outlined in the LA County Health Order on youth sports, which can be found at:

http://publichealth.lacounty.gov/media/coronavirus/docs/protocols/Reopening_SportsLeagues.pdf

The following are the protocols *by Field* effective for the weekend of 4/17 and 4/18/2021:

- Region 7:** Playa Vista Sports Park – Players and referees required to wear masks
- Region 17:** Adams and Washington - Players not required to wear masks during active play. Referees required to wear masks, except CR as needed/comfortable
- Region 18:** Marine Avenue Park and Village - Players and Referees required to wear masks
- Region 21:** Anza and Cabrillo - Players and Referees not required to wear masks during active play
- Region 34:** Players and referees not required to wear masks during active play
- Region 92:** Players and referees not required to wear masks during active play

In all cases, on those fields where wearing masks during active play is not required, players and referees MAY wear a mask, if they so desire.

Any spectators and substitute players on the Assistant Referee (right) half of their sideline must at all times remain at least 3 yards from the touch line - 1 yard for the AR to maneuver plus 6 feet more. It is preferable, to the extent possible while maintaining 6 feet of distance between households, for spectators to first occupy the left half of their sideline (i.e., the space *not* behind the AR).

Region 18 – Marine Avenue Park – Home team spectators must occupy the concrete bleacher area only. Visiting team spectators must watch from the perimeter outside the fence, including the south side playground, as there is insufficient space for distancing from the field inside the fence.

Coaches are responsible for all aspects of their sideline, including mask rule compliance. Referees are not the enforcers of these rules, though they may ask the Coach to enforce them, if necessary.

If a Field Monitor is not present at a field when a team arrives, it is the Coach's responsibility to ask the players the following questions and only allow the presence of players who answer no to all:

1. Do you have a fever, vomiting or diarrhea?
2. Do you have any symptoms related to COVID-19?
3. Have you received a positive COVID-19 test in the past 14 days?
4. Do you live with, or have you been exposed to, someone who has been exposed/had symptoms/positive test in the last 14 days?

Thank you for doing your part in helping protect the players, coaches, referees and spectators.

Phil Ockelmann
Area 1D Area Director
